

Genius Hour: Make, Create, & Design Organizer

Learn by making...

1. Before actually making your product, be sure to create a rough **SKETCH** or **VISUAL PICTURE** of the final product. Even if you are creating something digital. This piece is critical!

2. List the **MATERIALS** you need for your product

3. Follow the **STEPS** you created in research and learning. Note any changes you made.

4. Include any and all **CHALLENGES** or **FAILURES** that you are learning from. (You will use this for your final presentation)

5. Note any feedback from the short conferences with **teachers/mentors** when discussing your product.

6. Will you **DOCUMENT** any of the making process for you final presentation? (Videos, Pics, Audio, and/or Text)
----Begin with the end in mind----
